

TO: STUDENTS, PROSPECTIVE STUDENTS AND STAFF

FROM: DR JM MABELEBELE, REGISTRAR

DATE: 10 FEBRUARY 2023

SUBJECT: 2023 ACADEMIC YEAR REGISTRATION – FINAL DATE: MONDAY, 20 FEBRUARY 2023

1. At its meeting held on 8 February 2023, the Executive Committee of Senate (ECS) discussed, amongst other matters on its agenda, the 2023 registration statistical report per qualification and School. The ECS resolved to extend the deadline for registration of students and prospective students to **Monday, 20 February 2023**. This should allow all the outstanding First Time Entering Students (FTEN) and continuing students to finalise their 2023 registration activities. It should be emphasised that this is the final registration date for 2023 academic year, and no further extension shall be granted by the University.
2. It should further be emphasised that continuing students, particularly in the School of Science and Technology and School of Oral Health Sciences who have just finalised their 2022 assessments should take advantage of the extension deadline to register for the 2023 academic year. Similarly, students who are still waiting for the finalisation of either their academic exclusion and financial exclusion appeal cases, will be allowed to register as and when their cases are resolved in the affirmative by the relevant Committees of the University.
3. Accordingly, Heads of Academic Departments and Supervisors of postgraduate students are requested to urge all their new and continuing students to register by Monday, 20 February 2023.

NB: The ECS has resolved to extend the deadline for registration of both prospective students and students to **Monday, 20 February 2023, and no further extension shall be granted by the University beyond this.**
